Product Description

Product Description:

Stainless Steel Sheet Plate is manufactured with advanced and superior technology, making it one of the most reliable products in the market. It is made with the highest quality materials, including 410 stainless steel, making it highly resistant to corrosion and wear. It has a wide range of applications, from food processing, automotive, and aerospace. It has a width of 1000-3000mm, and a thickness of 0.01-200mm. Moreover, Stainless Steel Sheet Plate is available in various shapes, sizes, and colors to meet the needs of customers. Additionally, its delivery time is 7-15 days, and it has a supply ability of 1000 Ton/Tons Per Month. Customers can pay via T/T, L/C, Western Union, and other payment methods. Being one of the most trusted and reliable China sheet supplier, we provide the best quality of Stainless Steel Sheet Plate with competitive prices.

Applications:

Tai-steel stainless steel sheet plate, with certification of ISO, SGS, and BV, is widely used in various industries, such as food industry, construction industry, shipbuilding industry, pressure vessel industry, energy and electricity industry, etc. It can be made of 304/304L/316/430 stainless steel, with a minimum order quantity of 5-T, a width of 1000-3000mm, and a thickness of 0.01-200mm. The price is 2900\$ per ton, and the delivery time is 15 working days. It is usually packed in standard export seaworthy package.

Tai-steel stainless steel sheet plate is produced via hot rolled, cold rolled, annealed, and pickled process. It is corrosion resistance and highly durable. It is mainly used for decoration, construction, kitchenwares, tableware, and medical instruments. It is also an ideal material for a wide range of applications, such as chemical containers, and automobile parts, like tailgate and fender.

Tai-steel stainless steel sheet plate is a reliable product with a good reputation. It has a competitive price in the market. It is the ideal choice for customers who need stainless steel sheet plate with high quality and cost-effective.
